## Introduction Etoile

Etoile International is a Dutch organization which is committed to international projects in the field of culture, theater and development. The association is in the Etoile network responsible for international relations and connections.

Etoile International is connected to the school ROC Midden Nederland and within the educational collaborations with various programs including the courses of Creative College.

Through collaborations with parties in education, culture sector as well as with various voluntary organizations and government agencies, the organization can ensure its goals of development and culture and can take care of equal opportunities for all.

Organization of all projects will always be in control of the Etoile organization with cooperation from the education partners.

Responsibility for the development of education and time lies with the education partners.

## Introduction Creative College

The Creative College trains young people for a job in the entertainment (artists training), audiovisual production, leisure and events, media and design stage and event technology. They will be taught in small groups and the teachers know all students by name. The school has a close cooperation with the industry.

## Introduction Project

Welcome to our international projects!

This document must include all information about what you can expect from us but also what we expect from you!

Each day there is a program that is packed with activities, rehearsals or things that belong in an international project.

The Creative Festival where you join now is a special project created to develop cooperation with each other in the Netherlands

One week you will stay to rehearse at the “Fort aan de Klop” with each other and develop the show!

Saturday, May 6, we will present our show during the Creative Festival which also include dance performances, music acts and other acts from the school Creative College!

We hope you will have a rewarding time and go enjoy the creativity and the special moments in this project!

## Program Overview
